Where does it go?

Your green waste is composted to create high-quality, nutrient rich soil amendment products that are suitable for use on farms and for mine rehabilitation, so you are supporting our local environment.

Loop Organics is passionate about what we do and how we do it. Our team, with over 60 years combined experience in organic waste management, are focused on driving sustainability in our industry.

Contact us to discuss how we can provide cost-effective and sustainable solutions for: councils, arborists, landscape gardeners, green waste suppliers.

We cannot accept: Asbestos, engineered wood products, preservative treated or coated wood residues
This site is not open to the General Public.
