Compostable Organics

Loop Organics

Loop Organics operate a 95,000 tonne licensed compost facility in the Hunter Valley where we create compost and soil amendments for agriculture, mine rehabilitation and landscape supplies.

We accept a range of organic material, including

Food Waste:
from the manufacture, preparation, sale, or consumption of food

FOGO:
Food and Garden Organics from kerbside collection service

Garden Waste:
Branches, grass, leaves, loppings, tree trunks, tree stumps.

Grease Trap:
including grease, oil, solids, or water that results from preparation or manufacturing of food

Manure, Papercrumble, Paunch, Natural Organic Fibrous Material:
Bagasse, peat, seed hulls and husks, straw, and the like

Biosolids:
General solid waste (non-putrescible) is the organic product that results from sewage treatment processes

Where does it go?

Your **waste** is composted to create high-quality soil solutions products which boost mine **rehabilitation**, agriculture production and landscaping, so you're supporting your local environment and contributing to a circular economy.

Our products meet NSW EPA resource recovery orders and we are NSW DPI Certified CA-03.

What we provide

We provide economical and sustainable waste processing solutions to hospitality, retail, food manufacturers, producers, councils, landscaping or green waste suppliers and water utilities. We can arrange transport.

Why choose us?

Loop Organics is passionate about what we do and how we do it. Our team, with over 110 years combined experience in specialist organic waste management, is focused on driving sustainability in the organics recycling industry.

See overleaf for more information.

The site is not open to the General Public.
