Garden Waste

Loop Organics

Loop Organics operate a licensed facility in Ravensworth in the Hunter Valley where we create compost for mines, agriculture and landscape suppliers.

We accept garden waste which consists of: branches, grass, leaves, lopping, tree trunks, tree stumps and similar materials, and includes any mixture of these materials.

We accept garden organics which consists of: plant material including garden waste from kerbside collection.

Where does it go?

Your green waste is composted to create high-quality, nutrient rich soil amendment products that are suitable for use on farms and for mine rehabilitation, so you are supporting our local environment. Our products meet NSW EPA resource recovery orders and we are NSW DPI Certified CA-05.

Loop Organics is passionate about what we do and how we do it. Our team, with over 110 years combined experience in organic waste management, are focused on driving sustainability in our industry.

We cannot accept:
Asbestos, engineered wood products, preservative treated or coated wood residues.

Contact us to discuss how we can provide cost-effective and sustainable solutions for: councils, mines, arborists, landscape gardeners, green waste suppliers.

This site is not open to the General Public.
